3975 Canterbury Walk Dr. Duluth, GA 30097

#### **EDUCATION:**

Georgia Institute of Technology, Atlanta, GA

Jun. 2014 – May 2018 (Expected)

- o Candidate for B.S. Computer Science, Systems & Architecture and Theory Overall GPA: 3.96/4.0
- CS Courses: Processor Design with FPGAs, Design and Analysis of Algorithms (Proof-based), Intro
  to Software Engineering, Systems and Networks, Objects and Design, Computer Organization and
  Programming (Assembly, C)
- o Math Courses: 2nd Course on Linear Algebra (Proof-based), Applied Combinatorics

#### **EXPERIENCE:**

#### Georgia Tech College of Computing, Atlanta, GA

Alternative Computing Technologies Lab Undergraduate Researcher

May. 2016 – Present

O Modified the Bluez Bluetooth library in C on Linux to communicate with an Arduino-based robot as part of an ongoing team research project

High Performance Architecture Lab Undergraduate Research Assistant

May. 2016 – Aug. 2016

- o Updated old version of Android usage logging app to work on latest versions of Android OS
- o Added save logs and anonymize apps features to enhance app functionality

# Cisco Systems, Inc., Lawrenceville, GA

Programming Intern

Aug. 2013 – Apr. 2014

 Worked under software engineer and collaborated with another intern to create a program to upload, process, and display videos with a system that was written in HTML, CSS, JavaScript (jQuery), and SQL (MySQL) using Vim on Linux (Red Hat) remotely

Hardware Design Evaluation Intern

Jan. 2013 – Apr. 2013

o Conducted testing and evaluated qualitative results for experts in the electrical engineering field

# **PROJECTS:**

GTMovies, Objects and Design Class

Jan. 2016 – Apr. 2016

- o Built an Android app to recommend movies to registered users based on user's major
- o Developed in a team of five as semester-long project using Agile practices (Scrum)

#### Learning Paths, HackDuke

Nov. 2015

- Built an Android app to act as a guide for learning a subject by allowing users to post and view courses consisting of content modules containing links and proprietary content
- o Developed in team of five members from diverse engineering disciplines

## Compressed Radix Tree, Data Structures and Algorithms Class

Jul. 2015

o Implemented a compressed radix tree from ground up for final project in data structures class

#### **SKILLS:**

**Programming Languages:** 

Proficient: Java, C/C++

Knowledgeable: MATLAB, HTML/CSS

E 'I' D.1 DID I TX

Familiar: Python, PHP, LaTeX

**Software:** Autodesk AutoCAD, Autodesk Inventor, Adobe Photoshop

Foreign Language: Advanced Level Spanish

#### **ACTIVITIES:**

HackGT, Sept. 2016 (Future)

**HackDuke:** Built Learning Paths, an Android app to post self-learning guides

Nov. 2015 **GT Appathon:** Built LettuceEat, a web app to encourage making healthy meal choices

Oct. 2015

## **AFFILIATIONS:**

Mobile Application Development Club, Design Club, Web Development Club
